Four Wheel Campers

Benefits to owning a truck camper ...

1. Easy to drive, maneuver and park.
2. Low profile, light weight, durability & utility oriented.
3. Save on fuel costs with a low profile camper design.
4. Have the ability to tow your boat, ATV or horse trailer.
5. Use your truck for other purposes.
(leave camper at home or a campsite and still use your truck)
6. Like to explore? Use your truck & camper to “go anywhere” you want and camp with some creature comforts.
7. Less long term costs compared to other RV’s.
(no engine, no tires, less maintenance, no registration in most states, etc.)
6. Quick & easy set up. Just minutes and you’re ready to camp.
(no pitching tents, no hard ground to sleep on, just warm & cozy sleeping)

Its all about quality & construction ...

INTERIOR FEATURES

Four Wheel Campers does **NOT** use any particle board or press board in the campers. The interior of all campers are finished with the finest of materials including solid oak appointments. Walls, cabinets and settees are constructed of a special light weight vinyl clad wood for easy cleaning, strength and durability. The counter tops and table are Formica.

ALL ALUMINUM “FLEX-FRAME”

Four Wheel Camper’s unique all welded aluminum FLEX-FRAME provides unparalleled strength and durability while eliminating the possibility of dry rot associated with traditional wooden framed campers. The overall construction allows the camper to flex with the torque generated by the truck bed under off-road conditions.

With 35 years of proven success Four Wheel Pop-up Campers are built to be the best !

The basic concept is simple. Build a camper frame that manages bed flex without coming apart. Apply the weight at the lowest possible center of gravity and make the overall construction so light that it doesn’t alter the drivability of the vehicle.

The advantages not only apply to the serious off-road enthusiast but also the people that plan leisurely weekend to their favorite recreation area with friend & family. Convenience, comfort and durability is the formula that will insure your adventures are a success.
